

Welcome to the members area. It's great to have you here.

Each and every person has the ability to make a lasting impact.

The Journey of Becoming.

What I love about this business is that age is not a barrier.

My understanding is that you decided to join because you are looking for something. An outcome that is different to what you currently are experiencing.

I assure you that the thinking that has got you to where you are today, will not get you to where you want to be.

To benefit from the information I have available here, you must have a WHY and a WHERE.

Where and what is your destination.

For some, it will be a lifestyle, for others it will be an income. Yet others it will be a purpose. For me, it's a combination of all three.

The Journey to Becoming.

What has got you here won't get you there.

When you accept that statement, you are able to begin the Journey.

Your WHY and Your Where (goals) are the beginning of the Journey.

The DESTINATION is the mountain top (your future self).

The part in the middle is the Journey. If it was easy everyone would do it. It is quite simple when you understand and accept the process. You cannot get from here to there without doing the bit in the middle.

Question to consider.

Who do you think you are?

When people here this it is usually with a negative attitude.

The real question is What you think determines who you are.

Who you think you are..... you are.

You have become who you are due to Family, community, Culture, Country, Circumstances.

You may have heard the expression

Be: Do: Have:

Be more.....Do More.....Have More.

Well, I never fully understood that. I certainly have Done More...and had more, but I had no interest in "doing more."

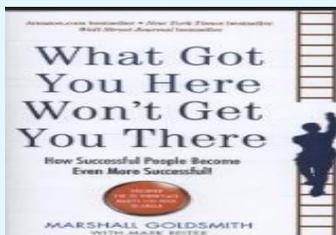

I desired to do different to have more.

It meant I had to BE different.

For me, I understood that to be promoted I my career, I would have to be more etc.

Now that I am a Business Owner and have acquired more knowledge, I understand the concept better.

Rule 1: what has got you here won't get you there.

BE Different:Be learning different concepts. (the reason for the members area.)

Do Different: Do the activity. (outside your comfort zone.)

Have Different: ... Have a different outcome.

Rule 2: Identity drives behaviour.

Who you think you are creates the actions, habits and emotional feelings that create reality. Your reality. Everyone experiences a different reality.

Rule 3: Goals create your identity.

When you create a new Goal, which is a new thought, and insert that thought into your **mind**, and think about all the time, it will become real.

Mind creates form.

Ponder this, everything that exists in our material world, has been designed and produced by specific actions.

The design had to be first a thought.

Thought: Mind: Form:

Ponder these concepts as you peruse the members area.

This is no secret.

What I do.

I help to move people.

From where they are to where they want to be.

Using our unique methodology

S.A.M.S.A.T.M+V=F.F.

It's a process. It's a Journey.

It begins with Learning.

Learning to understand that what has got you to where you are won't get you to where you want to be.

The members area has been made available to all those who are looking to change where they are, to learn the process to get where they want to be.

The only caveat is this:

If you don't know where you want to be, no amount of information will get you there.

The first step is to know what you want, and why you want it.

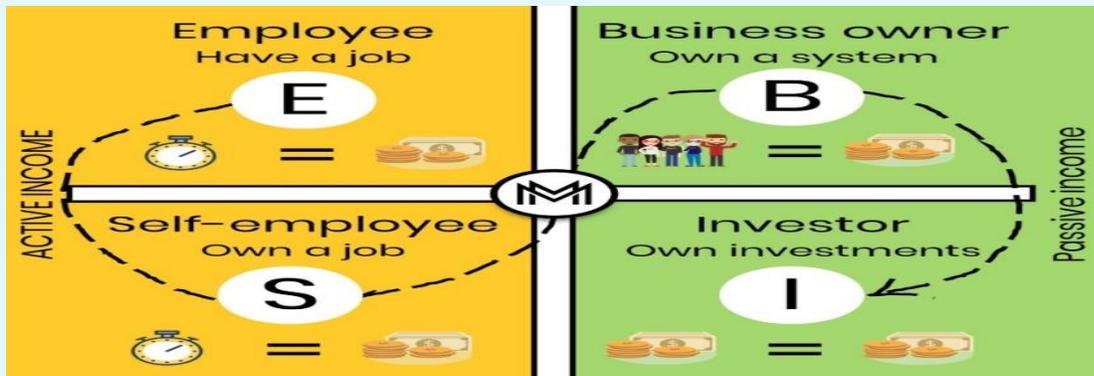

I'm sure you'll agree that we acquire the skills of living successfully through knowledge.

Knowledge, properly applied, is power – and knowledge is available to everybody.

I urge you to become a sponge for information that will help you on your way.

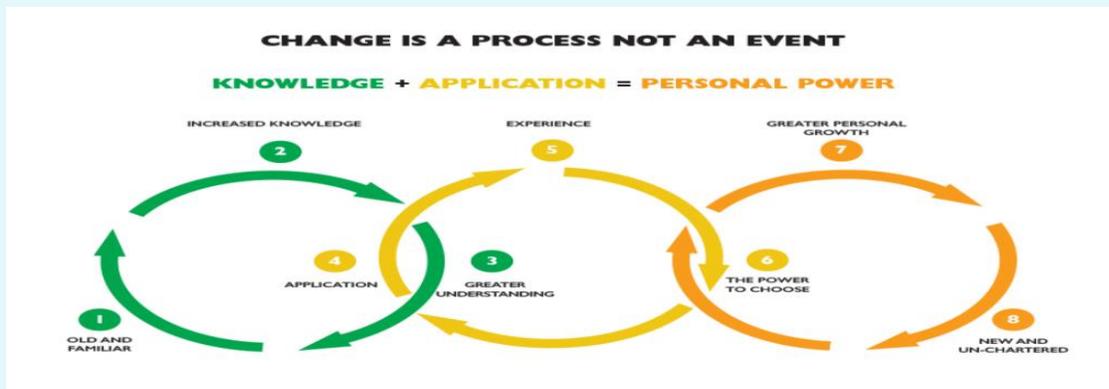

You don't have to waste years making the mistakes others have made before.

There is no secret.

I am a Business Owner. This system works for all.

Remember this will not happen overnight. Change is a process.

Please enjoy the learning, and I desire that everyone gets what they desire from the information.

Our business model gets results. If you seriously decide that this vehicle will give you the keystone goal (a keystone goal is something, when achieved, makes everything possible) I encourage you take the next step. Have a conversation with me.
